WARTHOG

***Remember boys and girls!* - Do not play with guns! Guns are not toys. They are very dangerous and should only be handled by responsible adults and parents. Our friend 'Wart' only uses them when he has to protect our country from those who mean to do us harm. If you ever find a gun, leave it where it is and quickly show your parents or a responsible adult as fast as you can! Wart will be proud of you, and so will the soldiers and law-enforcement officers who protect you.**
